

Wynn's present at the Ukrainian "AD OPEN" fair

In December 2010, Autotechnics (member of the AD group), one of the largest spare parts and auto accessories importer in Ukraine, organized for the second time the "AD OPEN" exhibition in Kiev. Autotechnics is an official distributor of Wynn's products in Ukraine and showed a significant growth in 2010.

Wynn's Belgium participated in the "AD OPEN", which provided the possibility of direct communication with specialists and top managers of all Ukrainian automotive aftermarket branches.

The Autotechnics team and Jan Lammens, the Area Sales Coordinator for Ukraine, had the chance to communicate new developments and products to the end customers first hand! Wynn's received a lot of positive feedback, and the high quality perception of the products and brand was confirmed.

Thanks again to Autotechnics for an impeccable organization. Wynn's is already looking forward to the next fair!
