

WYNN'S AT CATEXPO IN KAZACHSTAN

From the 16th to the 19th of June our distributor from Kazakhstan "Autoplanet", took part in the international exhibition "CATEXPO".

This event in Almaty is one of the leading automotive fairs in the region, and attracts numerous suppliers, distributors and major players of the automotive sector. It's the ideal venue to present our innovative and high-quality products.

Kazakhstan and Central Asia is a very important region for Wynn's, so we were very pleased to be represented by one of youngest and most promising distributors at "CATEXPO".

Thanks again to Autoplanet for giving our products the spotlight they deserve.
