DASH & DISPLAY CLEANER

Wynn's DASH & DISPLAY CLEANER has been specially formulated for use on modern vehicles with TOUCHSCREENS. Its SILICONE-FREE MATT FINISH & TOUCHSCREEN SAFE formulation, cleans, restores and protects dashboards, touchscreens and interior trim.

Properties

- ✓ Water-based product especially formulated to provide an immaculate and durable finish of the vehicle dashboard and liquid crystal, plasma, etc. displays.
- ✓ Suitable to clean fingerprints on touchscreens.
- ✓ Eliminates all types of dirt and has no incompatibilities with the material commonly used in dashboards nowadays.
- ✓ Excellent cleaning of sensitive surfaces without scratching.
- ✓ Free of ammonia, perfumes and solvents.
- ✓ Removes dirt, dust, grease, footprints and nicotine and cleans thoroughly without leaving residue.
- ✓ Its anti-static effect provides a surface free of dust and dirt.
- ✓ Biodegradable.

Applications

- ✓ Suitable for use on all types of plastic surfaces and flat and plasma screens: computers, mobiles, laptops, tablets, televisions, scanners, photocopiers, etc.
- ✓ Effective on plastic, leather, vinyl, rubber and wood.
- ✓ Compatible with delicate surfaces such as coated screens (e.g. anti-reflective coatings) according to our knowledge and experience.

Directions

Cleaning the dashboard and non-delicate plastic parts:

- ✓ Clean the dashboard or plastic surface by applying the product carefully on the surface or preferably on the cloth provided with the cleaner.
- ✓ Let the product dry.

Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

Product specifications

- ✓ Repeat the process if persistent dirt is observed after the first cleaning.

Cleaning screens and delicate parts:

- ✓ Turn off the monitor and make sure the surface is not hot.
- ✓ Check that there are no abrasive particles on the surface to be cleaned, such as sand, dust, etc. that can scratch the surface.
- ✓ Use a suitable, clean and lint-free cloth or cloth such as the one supplied with the product. Avoid the use of cloths that can be abrasive due to excessive roughness.
- ✓ It is recommended to apply the cleaner to the microfiber cloth.
- ✓ Never spray the product outside the intended area and ensure that it does not penetrate the internal parts of the device.
- ✓ Clean the surface gently and without excessive pressure, until complete drying.
- ✓ Repeat the process if persistent dirt is observed after the first cleaning.

Packaging

PN 41703 – 6x500 ml – EN/FR/DE/NL/IT/ES/PT

Precautions

INITIAL CAUTION: Always test first by applying a little product in a small restricted area to ensure the compatibility of the cleaner with the surface to be cleaned.

It is recommended in any case always follow the instructions given by the manufacturer of the device to be cleaned.
