WHEEL CLEANER

WYNN'S WHEEL CLEANER is an innovative formulation for the cleaning of all type of metallic wheels with its exclusive NON-DRIP and COLOUR CHANGE effects, ensuring a complete removal of any dirt accumulated on the wheel surfaces.

Properties

- ✓ Water-based product of neutral PH with the colour change & non-drip exclusive properties.
- ✓ The NON-DRIP formulation allows the product to remain in contact with the wheel surface for longer time, improving the cleaning action.
- ✓ The COLOUR CHANGE feature serves as visual proof of performance, turning the wheel colour to red as it breaks down the dirt.
- ✓ Easy to use; apply, observe the colour change and remove the remaining dirt with ease.

Applications

- ✓ For all type of metallic wheels.
- ✓ Do not apply on hot surfaces.

Directions

- ✓ Spray the product directly on to the wheel surface.
- ✓ Let the product work for 2-3 minutes until the product becomes red.
- ✓ Rinse the product with a pressure washer or a hose.
- ✓ If required, brush the wheel surface for stubborn, ingrained dirt.
- ✓ Some dark spots might appear on the exposed disc surface and caliper after applying the product. They are completely innocuous and will disappear after driving a few hundred meters.
